Arrest of Seven Employees Has Cleared up Situation Regarding Big Robberies.

(By Associated Press) NEW YORK, May 23.—Discovery through finger printing that 49 of the 460 employees of the registry division of the New York post office had criminal records, was reported to President Harding today by Acting Postmaster General Bartlett, upon his return from an investigation of the New York office. All have been dropped from the service, Bartlett said.
The acting postmaster general told President Harding his discovery came during his inquiry into the arrest last Thursday of seven employees of the New York office which arrests, postal officials assert, cleared up postal robberies extending over the last six months, and involving nearly \$200,000,000. These arrests are also said to have thwarted a gigantic robbery planned for last Friday night in the registry division itself.

ORE SHOWING SILVER PICK REAL BONANZA

Considered Equal to Rich Finds Made During Early Days of Famous Mohawk Mine.
FREE GOLD IS IN EVIDENCE
Oreshoot Is Exposed for Length of Ninety Feet and Heavy Output Being Made.
About 1100 tons of ore of varying grade has come from work on and above the intermediate level between the third, or 265, and fourth, or 333, in the Silver Pick lease on the Red Top mine of Goldfield Consolidated and still today, in no direction, is there an indication that the limits of this great orebody have been reached. From the south wall of what is known as the "big" stoep to the face of the north drift on the intermediate level the orebody has been opened for a length of 90 feet. On the third level, 100 feet north of the face of the drift on the intermediate, indications yesterday were that ore had been or soon would be opened at this place. That the ore goes above the third level is certain and in a few days work will be started on the fourth level, 65 feet lower on the dip of the vein, to open the shoot at this depth. Although the Silver Pick has been pounding away at the orebody since last winter, and although 20 carloads of ore has been sent from the intermediate level, still the dimensions of the orebody are unknown. It is only known that the shoot is of great size and value, says the Tribune.
This orebody is in territory that is entirely "virgin." It is 150 feet into the foot-wall of the main Red Top vein and about an equal distance north of the Red Top shaft. It is in a vein parallel to that in which the famous stoeps of the Red Top mine were opened. The Red Top shaft, far into the foot-wall of the vein mined by that company at this depth, is 50 feet on the hanging-wall side of the vein in which the Silver Pick has found the ore. The Consolidated in the early days crosstied this 50 feet and drifted about 20 feet of the vein, mining some rich ore from a winze, but

WHITE CAPS MILL TO START SHORTLY

Work of repairing the mill at the White Caps mine at Manhattan is progressing quite satisfactory, about a dozen men being employed. Many of the pipes burst during the winter as a result of the freezing weather, but the repairs are fast being made and it is quite likely that inside of the next couple of weeks the machinery will be brought into commission for a continuous run.
Mine development is being prosecuted on the 800 level, in the 150-foot winze from that point and on the intermediate level, 80 feet above the 800 point and large bodies of commercial grade ore are exposed which insure a substantial earnings during the milling season.

ULSTERS CARRY OUT RAIDS AND GATHER IN 300

Majority Are Officers in Republican Army and They Will be Interned Indefinitely.
MANY PROMINENTS INCLUDED
Action Is Taken in Reprisal of Recent Republican Army County Raids.

(By Associated Press) BELFAST, May 23.—The greatest raid in the recent history of Ireland was carried out early today when swarms of police swept through Ulster and rounded up 300 Sinn Feiners, a majority of whom were Irish republican army officers. The northern government's action was taken, it was stated, in an effort to suppress not only the Irish republican army and the Irish republican brotherhood, but all other Sinn Fein organizations in the six-county area. It was officially announced the prisoners will be interned. The captured include some of the most prominent Sinn Feiners in the Ulster area.
The government's move follows swiftly upon the Irish republican army raids and burnings of buildings in the counties of Down and Antrim, and the intensified hostilities in Belfast recently, culminating in the murder yesterday of W. J. Twaddell, member of the Ulster parliament. Nearly every town and village in Ulster was visited, but the bulk of the prisoners were taken in the country districts from farm houses. Comparatively few captures were made in Belfast as most of the republican army men living in the Sinn Fein districts and in Belfast had been anticipating action by the police as a result of the Twaddell assassination and had gone "on the run."

(By Associated Press) DUBLIN, May 23.—Ard Phels, the national Sinn Fein organization, today ratified the agreement reached last week by factions in the Dail Eireann regarding elections and the composition government.
Michael Collins, head of the provisional government addressing Ard Phels, said the value of the agreement reached by the Dail Eireann last Saturday was that it secured unity of the nation, enabling Ireland to end disorder.

(By Associated Press) LONDON, May 23.—At a meeting of parliament of northern Ireland, Premier Craig announced the Irish republican army had been proclaimed an illegal assembly, says a Central News dispatch from Belfast. Parliament then adjourned as a mark of respect to W. J. Twaddell, the murdered victim.
(By Associated Press) DUBLIN, May 23.—Wholesale arrests of Sinn Feiners by the Ulster authorities is regarded in Dublin as an unhappy development for the southerners in favor of conciliation, and the opinion was freely expressed it might result in strengthening the republican party, led by DeValera.
